

Carbon Vent

Eliminates Septic Tank Odors

Zoeller Pump Company's Carbon Vent is a must-have accessory if septic tank odors spoil your outdoor activities. The activated carbon within the vent effectively eliminates these odors without interfering with the operation of the biological environment of the septic tank. The carbon vent is constructed of non-corrodible materials and will withstand years of weathering. Installation is easy and models are available to fit either 3" or 4" pipe sizes. The carbon vent's design allows for easy renewal of the carbon if its effectiveness diminishes.

Features

- Each vent holds 8 oz of activated carbon
- Twist top for easy maintenance prevents leaves, rain, etc. from entering vent
- Eliminates septic tank odors
- Fits vent pipes on portable toilets

Carbon Vent	
Part Number	Description
5090-0006	3" or 4" carbon pipe filter
156148	Replacement carbon
