"EXTRA PROTECTION" TWO PUMP SYSTEM

The "Extra Protection" Two-Pump System is an economical solution to the costly duplex alternating pump system and it's easy to install.

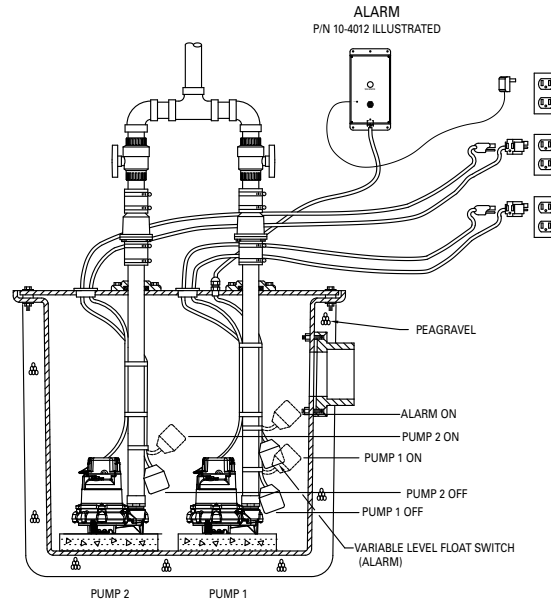

The "Extra Protection" Two-Pump System consists of:

- a. The two pumps of your choice
(See chart on back)
- b. One alarm system
(See chart on back)
- c. Two unichek valves as required
(See chart on back)

ADVANTAGES

1. The Two-Pump System offers more protection without the high price. It is a system that fits your needs and your budget.
2. Delivers more dependability than a single pump system and greatly reduces the chance of costly failures.
3. Easy and economical to install.

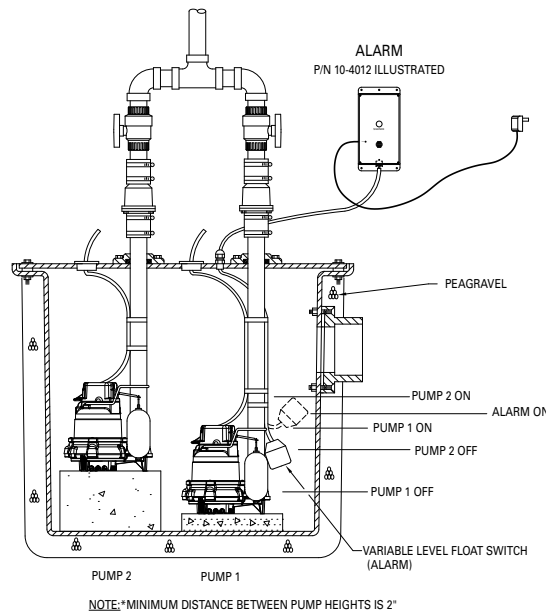

BE & BN Pump Model Systems

SK878

Note: Lead and lag pump can be altered by switching pump power cord to opposite switch outlets. Minimum distance between on points 2"

M & D Pump Model Systems

NOTE: *MINIMUM DISTANCE BETWEEN PUMP HEIGHTS IS 2"

SK1602
