

Orifice Shields

Protect Dosing Orifices From Surrounding Media In Pressurized Distribution Systems

Slotted Caps

Solid Caps

Zoeller Pump Company's Orifice Shields provide protection from the media or debris that surround an orifice in low pressure pipe applications. These simple, snap-on caps ensure that the flow from orifices in a lateral system remain uniform and consistent. Orifice shields are available in a solid cap for upward spray or a slotted cap for downward spray.

Features

- Solid or slotted shields are available
- 3" shields easily snap onto 3/4" or 1" piping
- 4" shields easily snap onto 1-1/4", 1-1/2, and 2" piping

Orifice shields create a buffer space around the drilled orifices, ensuring consistent flow in pressurized distribution systems. Available in a solid cap for upward spray or a slotted cap for downward spray. The orifice shields easily snap onto a 3/4" - 2" PVC piping.

Orifice Shield	
Part Number	Description
5055-0001	3" Solid orifice shield for .75" pipe, box of 100
5055-0002	3" Solid orifice shield for 1" pipe, box of 100
5055-0003	4" Solid orifice shield for 1.25" pipe, box of 60
5055-0004	4" Solid orifice shield for 1.5" pipe, box of 60
5055-0005	3" Slotted orifice shield for .75" pipe, box of 100
5055-0006	3" Slotted orifice shield for 1" pipe, box of 100
5055-0007	4" Slotted orifice shield for 1.25" pipe, box of 60
5055-0008	4" Slotted orifice shield for 1.5" pipe, box of 60
5055-0022	4" Solid orifice shield for 2" pipe, box of 50
5055-0023	4" Slotted orifice shield for 2" pipe, box of 50
